Dr Ranjeet Mehta and Ms Ankita Rani

Today, all across the country, biotechnology entrepreneurs are developing the types of game-changing innovations that will transform the way we heal, fuel and feed the world. As more of these groundbreaking innovations come to market, they will not only provide enormous societal benefits, but they will serve as an economic engine for our economy.

Biotechnology, globally recognized as a rapidly emerging and far-reaching technology, is aptly described as the "technology of hope" for its promising of food, health and environmental sustainability. The recent and continuing advances in life sciences clearly unfold a societal benefits, but they will serve as an economic engine for our economy.

The recent and continuing advances in life sciences clearly unfold a societal benefits, but they will serve as an economic engine for our economy.

Biotechnology, globally recognized as a rapidly emerging and far-reaching technology, is aptly described as the "technology of hope" for its promising of food, health and environmental sustainability. The recent and continuing advances in life sciences clearly unfold a societal benefits, but they will serve as an economic engine for our economy.

Large number of therapeutic biotech drugs and vaccines that are currently being marketed, accounting for a US$40 billion market and benefitting over a hundred million people worldwide. Hundreds more are in clinical development. In addition to these there are a large number of agri-biotech and industrial biotech products that have enormously helped mankind.

The Indian Biotechnology sector is gaining global viability and is being tracked for emerging investment opportunities. Human capital is perceived to be the key driver for global competitiveness. Added to this is a decreasing appetite for risk capital in developed countries, which has led to a decline in the biotechnology sector in these regions where survival lifelines are being provided by the lower cost research environs of the developing world such as India.

For a country like India, biotechnology is a powerful enabling technology that can revolutionize agriculture, healthcare, industrial processing and environmental sustainability. The Indian biotechnology sector has, over the last two decades, taken shape through a number of scattered and sporadic academic and industrial initiatives. The time is now ripe to integrate these efforts through a pragmatic National Biotechnology Development Strategy. It is imperative that the principal architects of this sector along with other key stakeholders play a concerted role in formulating such a strategy to ensure that we not only build on the existing platform but expand the base to create global leadership in biotechnology by unleashing the full potential of all that India has to offer.

India is amongst the top 12 biotech destinations in the world and ranks third in the Asia Pacific region. India has the second highest number of U.S. Food and Drug Administration (USFDA)-approved plants, after the USA. India has adopted the product patent regime in 2005. Huge domestic market and large consumer base with increasing disposable income. India is the world's leading supplier of affordable vaccines and producer of recombinant Hepatitis B vaccine. India is the fastest growing major economies with GDP growth rate of above 7%. India has the potential to become a major producer of transgenic rice and several genetically modified (GM) or engineered vegetables. Abundance of highly-skilled and trained pool of talent. Special purpose

MANAGEMENT OF KNOWLEDGE ECONOMY AND SOCIETY

Prof. S.K. Kataria

The present human civilization and culture are passing through the fast changing global trends. The New Economic Order (NEO) across the globe has initiated the "Paradigm Shifts" in almost every sphere of human life, polity, society and administration. It is generally quoted that the present millennium is the best platform for knowledge society. Knowledge revolution that seeks to build capacity and generate quality will enable India to empower her human capital, including the 50% population below the age of 26 years. Such a unique demographic dividend offers a tremendous opportunity as well as a daunting challenge which requires creative and holistic strategies for a new knowledge oriented paradigm. Knowledge has replaced capital as the most important determinant of development. Since ages, India has been a Vishvaguru. Unfortunately, the country is now struggling for her glorious legacy. In formulating our vision of the future India, it is important to see beyond the limits of the immediate or long past to rediscover the greatness that is India. Alvin Toffler says: The illiterate of the 21st century will not be those who cannot read and write, but those who cannot learn, unlearn and relearn. Knowledge Economy

The terms 'knowledge economy' or 'knowledge-based economy' are generally used interchangeably. However, there is a significant difference in both the terms. Knowledge economy refers either to an economy of knowledge focused on production and management of knowledge in the frame of economic constraints. Here, knowledge and education is treated as a business product or productive asset. So far as knowledge-based economy is concerned, it considers knowledge as a tool. However, this difference is not yet well distinguished in the subject matter literature. Both the terms as well as other related terms like 'knowledge society', 'information society', 'knowledge revolution', 'knowledge market' are interdisciplinary in nature and overlapping each other. As per the definition given by the World

organization such as Biotechnology Industry Research Assistance Council (BIRAC), a Public Sector Undertaking of Department of Biotechnology, to suppose industry through funding, mentoring, handholding and infrastructure support. The Indian biotech industry is expected to grow at 30.46 percent CAGR to reach USD 100 billion by 2025. The Biotechnology Industry in India has grown from $1.1 billion in 2005 to $7 billion in 2015 and is expected to reach $11.6 billion in 2018. The growth is due to a range of positive trends such as growing demand for healthcare services, increasing demand for food & nutrition intensive R&D activities and strong government initiatives. The bio-pharmaceutical sector accounts for the largest share of the biotech industry with a share of 62% of total revenues in 2015, followed by bio-services (18%), bio-agri (15%), bio-industrial (4%) and bio-informatics (1%). Supported 104 new startups, 346 companies, 509 projects including 115 collaborative projects through BIRAC, a Public Sector Unit of Government of India.

India has many assets in its strong pool of scientists and engineers, vast institutional network and cost effective manufacturing. There are over a hundred National Research Laboratories employing thousands of scientists. There are more than 300 college level educational and training institutes across the country offering degrees and diplomas in biotechnology, bio-informatics and the biological sciences, producing nearly 500,000 students on an annual basis. More than 100 medical colleges add ~17,000 medical practitioners per year. About 300,000 postgraduates and 1500 PhDs qualify in biosciences and engineering each year. These resources need to be effectively marshaled, championed and synergized to create a productive enterprise.

India is reorganized as a mega biodiversity country and biotechnology offers opportunities to convert our biological resources into economic wealth and employment opportunities. Innovative products and services that draw on renewable resources bring greater efficiency into industrial processes, check environmental degradation and deliver a more bio-based economy.

Indian agriculture faces the formidable challenge of having to produce more farm commodities for our growing human and livestock population from diminishing per capita arable land and water resources. Biotechnology has the potential to overcome this challenge to ensure the livelihood security of 1.10 million farming families in our country.

We also feel that the advancement of biotech as a successful industry confronts many challenges related to research and development, creation of investment capital, technology transfer and technology absorption, patentability and intellectual property, affordability in pricing, regulatory issues and public confidence. Central to this are two key factors: affordability and accessibility to the products of biotechnology. Policies that foster a balance between sustaining innovation and facilitating technology diffusion need to be put in place.

This will require larger investments and an effective functioning of the innovation pathway.

This is the time for investment in frontier technologies such as biotechnology. It is envisaged that clearly thought-out strategies will provide direction and enable action by various stakeholders to achieve the full potential of this exciting field for the social and economic well-being of the nation. Biotechnology is necessary to maintain our agriculture competitive and remunerative and to achieve nutrition security in the face of major challenges such as declining per capita availability of arable land; lower productivity of crops, livestock and fisheries; heavy production losses due to biotic (pests, weeds) and abiotic (salinity, drought, alkalinity) stresses; heavy
Online Recruitment Applications (ORA) are invited for direct recruitment by selection through website http://www.upsconline.nic.in to the following posts by 29th March, 2018:

1. (Vacancy No. 18030501410)
   One Translator (Burmese), Signal Intelligence Directorate, Integrated Defence Staff Headquarters, Ministry of Defence (UR-01).

2. (Vacancy No. 18030502410)
   One Translator (Dari/Persian), Signal Intelligence Directorate, Integrated Defence Staff Headquarters, Ministry of Defence (SC-01). The post is reserved for Physically Challenged Persons viz. Orthopaedically Handicapped / Locomotor Disability / Cerebral Palsy with disability i.e. Both legs affected but not arms (BL) or One leg affected (Right or Left) (OL) or One arm affected (Right or Left) (OA).

3. (Vacancy No. 18030503210)
   Five Legal Officer (Grade-II), Legal and Treaties Division, Ministry of External Affairs (ST-01, OBC-02, UR-02). Of the five posts, one post is reserved for Physically Challenged Persons viz. Orthopaedically Handicapped / Locomotor Disability / Cerebral Palsy with disability i.e. One leg affected (Right or Left) (OL) or One arm affected (Right or Left) (OA) or One Leg and One Arm Palsy with disability i.e. One leg affected (Right or Left) (OL) or One arm affected (Right or Left) (OA) or One Leg and One Arm Palsy with disability i.e. One leg affected (Right or Left) (OL) or One arm affected (Right or Left) (OA).

4. (Vacancy No. 18030504210)
   Four Public Prosecutor, Department of National Investigation Agency, Ministry of Home Affairs (OBC-01, UR-03).

5. (Vacancy No. 18030505610)
   Four Stores Officer, Geological Survey of India, Ministry of Mines (SC-01, UR-03).

6. (Vacancy No. 18030506510)
   One Senior Lecturer (Textile Processing), Office of the Development Commissioner for Handlooms, Ministry of Textiles (UR-01).

The candidates willing to apply for the above posts are advised to visit Commission’s ORA Website http://www.upsconline.nic.in. The detailed advertisement along with ‘Instructions and Additional Information to Candidates for Recruitment by Selection’ has been displayed on Commission’s Website http://www.upsc.gov.in as well as on the Online Recruitment Application (ORA) website http://www.upsconline.nic.in.

**Institute of Life Sciences**

An Autonomous Institute under the Dept. of Biotechnology

Ministry of Science & Technology, Govt. of India

Bhubaneswar-751023, India

Adv. No. 35/2017

Date: 23.02.2018

Institute of Life Sciences (ILS), Bhubaneswar, engaged in advanced research in modern biology invites applications from Indian nationals for JRF position in a DBT sponsored project on chronic myeloid leukemia.

**Important Dates:**

- Last date of receiving complete application: 16.03.2018
- Date of display of shortlisted candidates: 22.03.2018
- Date of interview: 12.04.2018

Details of advertisement and application form is available at [www.ils.res.in](http://www.ils.res.in).

Administrative Officer

---

**National Institute of Immunology**

An autonomous research institute under the administrative control of Department of Biotechnology, Ministry of Science and Technology, Government of India. The Institute is located in the institutional area on Aruna Asaf Ali Marg, adjacent to Jawaharlal Nehru University. It invites applications for the post of Senior Manager on deputation basis in Level-13 of Pay Matrix as per 7th CPC (PB-4, GP of Rs 8700/-), as per 6th CPC from qualified, dynamic, result-oriented and dedicated Officers possessing Graduate qualification in any discipline and having knowledge of Administration, Engineering, Estate, Finance, Stores etc.

2. **Eligibility conditions:** Officers of the Central Government/ State Government, Semi-Government Organisations, Universities, Research Institutions, Autonomous Bodies, Public Sector Undertakings, holding analogous post in terms of the pay scale and status or the Officer has worked for at least 8 years on the lower post in Level-12 of Pay Matrix as per 7th CPC (PB-3, GP of Rs 7600/-, as per 6th CPC), not exceeding age of 56 years as on the closing date of receipt of applications, are eligible to apply on deputation basis.

For job profile, terms and conditions and other relevant details along with the Hindi version, log on to [www.nil.res.in](http://www.nil.res.in) or [www.dbtindia.nic.in](http://www.dbtindia.nic.in). The advertisement has also been uploaded on National Career Service (NCS) portal.

**Last date for receipt of applications:** Within 30 days from the date of publication of the advertisement in Employment News.

No. A-35021/01/2018-Admin.II

Union Public Service Commission

Dholpur House, Shahjahan Road, New Delhi-110069

Fax: 011-23098552

Dated: 20/02/2018

**VACANCY CIRCULAR**

Applications are invited for filling up of four (04) vacancies (which may be increased as per requirement) of Technical Assistant (Accounts) (General Central Service, Group-‘B’, Non-Gazetted, Non-Ministerial) in the Office of UPSC in the Scale of PB-2 (Rs. 9300-34800/-) with Grade Pay of Rs. 4200/- (Level-6 of the Pay Matrix) on Deputation/Absorption basis.

**2. Eligibility Conditions: Deputation/Absorption:**

(A) (i) Holding analogous posts on regular basis or equivalent in the parent cadre or department; or

(ii) With six years’ service in the grade rendered after appointment thereto on a regular basis in the Pay Band-1 of Rs.5200-20200/- with Grade Pay of Rs.2800/- (Level-5 in revised Pay Matrix) or equivalent in the parent cadre or department; or

(iii) With ten years’ service in the grade rendered after appointment thereto on a regular basis in the Pay Band-1 of Rs.5200-20200/- with Grade Pay of Rs.2400/- (Level-4 in revised Pay Matrix) or equivalent in the parent cadre or department; and

(B) (i) Possessing three years’ experience in cash, accounts and budget works; or

(ii) Having completed training in cash and accounts work conducted by the Institute of Secretariat Training and Management or equivalent training.

3. The details like General Conditions, Eligibility Criteria, Age Limit, Proforma of Application Form etc. are available on the website of UPSC i.e. http://www.upsc.gov.in/vacancy-circulars.

Interested and eligible officials may send their applications in prescribed proforma along with copies of the APARs for the last five years (2012-13 to 2016-17) duly attested on each page by an officer not below the rank of Under Secretary to the Govt. of India, cadre clearance and vigilance clearance through proper channel to the undersigned within 60 days from the date of advertisement of this vacancy in the Employment News / Rozgar Samachar.

Government of India
Ministry of Defence
Defence Research and Development Organization (DRDO)

Defence Institute of Bio-Energy Research (DIBER)
Haldwani-263139, Nainital (Uttarakhand)

Vacancies of Junior Research Fellows

Defence Institute of Bio-Energy Research (DIBER) under the aegis of DRDO is engaged in Research & Development in the area of bio-resource utilization for bio-energy, herbal product development and application of genetic engineering for crop improvement. DIBER provides excellent opportunity to young and motivated researchers to pursue career in basic and applied field of Life Science research with state of art research facilities. Applications are invited from young and motivated candidates for the post of Junior Research Fellows to work in ongoing and future research projects at DIBER and its stations and project sites.

AGE: For Junior Research Fellowship (JRF) maximum 28 years, as on the last date of receipt of application (Relaxable for SC/ST/OBC and OBC as per Govt. rules).

Stipend (Monthly): DRDO Junior Research Fellow (JRF): Rs. 25000/- + HRA as per DRDO rules.

Guidelines

1. JRF Tenure: fellowships are available for initially 02 years as JRF and extendable as per rule.
2. A crossed Indian Postal Order of Rs. 10 (Rupees ten only) as fee for application payable to Director DIBER Haldwani (candidate belonging to SC/ST and OBC are exempted from fee) must be enclosed with application.
3. Candidates will be essentially required to produce original certificates/ testimonials w.r.t. qualifications & experience, for verification at the time of interview. Incomplete applications will be rejected during the screening for eligibility. Antecedents of candidate will be verified again at the time of joinings, if selected. Offer of award of Fellowship does not confer on the candidates, any right for absorption in DRDO. No TADA will be paid for attending interview or for joining, if selected.
4. Last date of accepting duly filled application will be 21 days after the publication of this advertisement. Completed applications must reach DIRECTOR DIBER (DRDO), Haldwani, Nainital, PO Arjunpur, and Gorapara-263139 by 17.30 hrs of last date. Interview will be held on a suitable date after screening of applications. Exact date will be notified on our website (www.drdo.gov.in).

Ph.D Programme:
Selected candidates may be registered for Ph.D Programme.

Essential Educational Qualification: Candidate must possess all essential qualifications by last date of application receipt.

Position

- Professor of Law (On leave/ Contractual / Temporary)
- Assistant Professor of History (Contractual / Temporary)
- Finance and Accounts Officer (Contractual / Temporary)
- Librarian (Contractual / Temporary)
- Deputy Registrar (Contractual / Temporary)
- Plumber (Contractual / Temporary)
- Electrician (Contractual / Temporary)

Preference would be given to the candidates having experience at National Law Universities. Duly filled-in applications must reach the University on or before March 16, 2018 (Friday) till 5:00 p.m. For further details, i.e. minimum qualifications, experience and application form please visit University website <www.nlnaugpr.ac.in>.

Subject : Filling up the posts of Account Officer

Department of Rural Development in the Ministry of Rural Development, New Delhi requires the services of 05 (five) person for appointment to the post of Account Officer in the pre-revised scale of Rs. 9300-34800 plus Rs. 46000- Grade Pay (Pay Band-2) and now in Level-7 (Rs. 44,900-1,42,400) in the Pay Matrix in 7th CPC on deputation/absorption basis from amongst persons working in the Central Government or State Government or Union Territories or Recognized Research Institute or Universities or Autonomous Bodies or Public Sector Undertaking or Semi Government and Statutory Organizations.

2. The qualifications and experience required for these posts and other details are given in Annexure-I.

3. It is requested that the applications of eligible and willing persons who can be spared immediately may be forwarded in the prescribed proforma (Annexure-I) to the Under Secretary (Admn.), Department of Rural Development, Room No.363, 3rd Floor, G-Wing, Krishi Bhawan, New Delhi-110001 within 60 days from the date of publication of this Advt. in the Employment News/Rozgar Samachar together with the following:

a) Vigilance Clearance in respect of the official.

b) Integrity Certificate and statement showing major or minor penalties if any imposed on the officer.

c) Up-to-date CR dossier of the applicant or clear photocopies of ACRs for last 5 years duly attested by a Gazetted Officer.

4. Application received after the closing date or receipt of application or without the CR Dossiers (or photocopies of CRs) or otherwise found incomplete is liable to be rejected.

5. The persons who apply for the above post will not be allowed to withdraw their applications subsequently.

6. While forwarding the application, it may be verified and certified that the particulars furnished by the official are correct. It may also be confirmed that in the event of selection for appointment, the official concerned will be relieved of his duties.

(R. K. Singh)

Under Secretary to the Government of India
Tel. No. 23384980

Annexure-I

1. Name of the Post

Accounts Officer

2. Number of Post

05 (Five)

3. Classification

General Central Service, Group ‘B’ (Gazetted)

4. Pay Scale/Pay Band and Grade Pay

Level - 7 (Rs. 44,900-1,42,400) in the Pay Matrix in 7th CPC (pre-revised scale- PB-2, Rs. 9300-34800 plus Rs. 46000- Grade Pay)

5. Duties and responsibilities of the post

1. To supervise the work of Accountant, Accounts Clerk and other functionaries.

2. Preparation of budget proposals of the respective programmes/schemes.

3. To exercise control over the budget allocation of the programmes/schemes;

4. Scrutiny of the reports of the Chartered Accountants/ Internal Audit/Statutory Audit/CAG/PAC etc.

5. Scrutiny of release proposals/utilization Certificates received from grant receiving bodies and issue of DCs to PAC.

6. Scrutiny of financial proposals relating to various schemes/programmes and making recommendations for consideration of the Financial Advisor (In Integrated Finance of the Ministry);

7. Attending to Standing Committee requirements relating to Demand for Grants of respective schemes; and

8. Any other assigned by the officers from time to time.

6. Pay and allowance admissible

The pay of the selected candidates will be governed as per instructions of the Central Government regarding appointment on deputation/deputation basis.

7. Eligibility conditions including educational qualification and period of deputation

Deputation (including short-term contract):

Officer under the Central Government or State Government or Union Territories Administration or Recognised Research Institutions or Universities or Public Sector Undertaking or Statutory or Autonomous Organizations:

(i) holding analogous posts on regular basis in the parent cadre or department, or

(ii) with Five years service in the grade rendered after appointment thereto on a regular basis in the Level-6 (Rs. 35400-112400) in the 7th CPC Pay Matrix or equivalent in the parent Cadre or Department; or

(b) possessing any one of the following qualifications:

(i) pass in the Subordinate Accounts Service (SAS) or equivalent examination conducted by any one of the organized Accounts Departments of the Central Government.

(ii) successful completion of Training in the Cash and Accounts Work in the Institute of Secretarial Training & Management or equivalent training course and a minimum of three years experience in Cash, Accounts and budget work.

Note 1: The Departmental Officers in the feeder category who are in the directed line of promotion shall not be eligible for consideration for appointment on deputation (ISCT). Similarly, deputationists shall not be eligible for consideration for appointment by promotion.

Note 2: Period of deputation (including short term contract) including the period of deputation (including short term contract) in another excadre post held immediately preceding this appointment in the same or some other Organization or Department of the Central Government shall ordinarily not exceed three years.

Note 3: The maximum age-limit for appointment by deputation shall not exceed 58 years as on the closing date of receipt of applications.

**General Information and conditions:**

**[A] Benefits under Council service:**

1. These posts carry usual allowances i.e. Dearness Allowance (DA), House Rent Allowance (HRA), Transport Allowance (TA) etc. as admissible to the Central Government employees and as may be applicable to CSIR employees stationed in Chennai. Council employees are also eligible for accommodation of their type only per CSIR allotment rules depending on availability in which case HRA will not be admissible.

2. Besides pay, these posts carry usual allowances as admissible under the CCS rules made applicable to Council employees. The total emoluments at the minimum of the scale for the posts at present is as follows (including House Rent Allowance) as applicable for the city of Chennai.

3. The selected candidate under CSIR-SEC will be governed by the New Defined Contribution Pension Scheme of Government of India as applicable with effect from 1st January 2014 amended from time to time.

**[B] Relaxations:**

1. The date for determining the age limit/experience/qualifications shall be the closing date prescribed for receipt of online applications i.e. 09-04-2018. The upper age limit is however, relaxable as per Government orders in force only in those cases where the post are reserved for respective categories, on production of relevant certificate in the prescribed format signed by the specified authority at the time of interview.

2. Upper age limit is relaxable upto 5 years for the regular employees working in CSIR Laboratories/ Institutes, Government Departments, Autonomous Bodies and Public Sector undertakings.

3. Relaxation in case of Ex-servicemen will also be applicable as per provisions.

4. Relaxation in the upper age limit of 5 years applicable for the persons who was who has been domiciled in the Kashmir Division of the State of J &K during the period of 01-01-1980 to 31-12-1989 subject to production of a certificate from the District Magistrate in the Kashmir Division within whose jurisdiction he/she has had ordinarily resided OR from any other authority designated in this behalf by the Government of J &K State to the effect that he/she had ordinarily domiciled in the Kashmir Division of State of J &K during the period from 01-01-1980 to 31-12-1989.

5. Special Age Relaxation: Upto the age of 35 years (up to 40 years for SC/ST and 38 years for OBC) in the case of Widows, Divorced Woman Judicially separated from their husbands, who are not re-married.

6. Age relaxation to the Persons with Disabilities (PWD) upto 10 years is allowed (15 years for SC/ST and 12 years for OBC).

7. Relaxation in age, qualification and/or experience may be permitted if sufficient number of candidate possessing the requisite qualification and/or experience is not likely to be available to fill up the posts.

**[C] General conditions/Information:**

1. These positions are open only to Indian Nationals/ Overseas citizens of India.

2. Candidate should ensure that he/she possesses educational qualifications/ experience in the relevant area as required in the category/post, for which he/she is applying, on the last date of receipt of online electronics application.

Continued on page 7
Continued from page 6

3. The number of vacancies indicated against each category is provisional and may vary at the time of selection.
4. The period of experience in a discipline/area of work, wherever prescribed, shall be counted after the date of acquiring the minimum prescribed professional and/or academic qualifications prescribed for the post.
5. The qualifications prescribed should have been obtained through recognized Universities/Institutions.
6. Application form should be complete in all respects. Complete application means (i) all information sought duly filled in or provided (ii) application form duly signed with date wherever required filed (iii) all relevant documents sought duly attested by the individual to be enclosed. Incomplete applications/applications received not accompanied by the required certificates/documents are liable to be rejected.
7. If any document is not self-attested, a copy of the same in a language other than Hindi or English, a transcript of the same duly attested by a Gazetted officer or notary is to be submitted.
8. Outstation candidates called for interview will be paid to and fro single class rail fare/ordinary bus fare from the normal place of their residence or that declared in the application or from the actual place of undertaking the journey, in India, whichever is nearer to the place of the interview, as per rules.
9. Camerawriting in any form and/or bringing in any influence, political or otherwise, is not treated as a disqualification for the post. Interim enquiries will not be attended to.
10. The decision of the Director: CSR-SERC in all matters relating to eligibility, acceptance or rejection of applications, mode of selection, conduct of skill test/interviews as per CSR/SERC Rules 1994 for Recruitment of Technical Assistants will be final and binding on the candidates and no interim enquiry or correspondence will be entertained in this connection from any individual or her/his agency.

[D] Mode of Selection
1. More than one candidate fulfilling the eligibility criteria is in a language other than Hindi or English, a transcript of the same duly attested by a Gazetted officer or notary is to be submitted.
2. Selection for the post of Technical Assistant: The candidates as mentioned in [C] above who are found eligible will be invited for a trade test. Those who qualify in the trade test will be invited for a competitive written examination. The merit list will be prepared on the basis of the performance of the candidates in the competitive written examination.
3. In the event of number of applications being large, CSR/SERC will adopt shortlisting criteria to restrict the number of candidates to be called for test/interview to a reasonable number by any or more of the following methods in respect of Senior Technical Officer:

   a) On the basis of higher educational qualifications than the minimum prescribed in the advertisement.
   b) On the basis of higher experience in the relevant field than the minimum prescribed in the advertisement.
   c) On the basis of higher proficiency in the tests prescribed for the post.
   d) By holding a written test.
   e) By any other methodology as deemed fit by Screening Committee.

Anansi Nagar, New-Delhi-110608

Ref. No. F. AIIMS/Exam.Sec./Advt./I-PG - JULY-18/2018 01.03.2018

AIIMS-PG (POST GRADUATE) COURSES-JULY 2018 SESSION

All India Institute of Medical Sciences, New Delhi invites online applications for Entrance Examinations leading to admission in Post Graduate [MD/MS/M.Ch. (6 years)/DM (6 years/MDS] Courses of AIIMS, New Delhi and five other AIIMS (Bhopal, Bhubaneswar, Jodhpur, Raipur & Rishikesh) for July, 2018 session.

Online Registration for applications

Online Registration Starts on 07th March, 2018 Closes on 27th March, 2018

Examination Date Sunday, 6th May, 2018

Examination Timings Medical Courses 10:00 AM- 01:00 PM

Dental Courses 10:00 AM- 11:30 AM

Examination Centres Cities all over India

For Prospectus, detailed information etc. please visit the website www.aiimsexams.org. All applicants are required to visit the website regularly since all subsequent Corrigendum/Addendum will only be uploaded on the website.

day 17112/11/121718

Government of India

Serious Fraud Investigation Office

2nd Floor Pt. Deendayal Antyodya Bhawan
B3 Wing, CGO Complex, Lodhi Road, New-Delhi-110003

No. 02/01/2017-Admn/SFO/Vol.II

It is proposed to fill up the following vacancies in this office on deputation/ISTC basis

Category of post Tentative No. of posts Tentative Place of posting Scale of pay (Pre-revised)
Senior Assistant Director (Banking) 5 Delhi/ Mumbai/ Chennai/ Kolkata/ Hyderabad Rs. 15600-39100 plus GP Rs. 5400

The particulars of post, eligibility conditions, etc. may be obtained from the website www.sfo.nic.in/ www.mca.gov.in. Interested and willing officers may forward their application complete in all respect through proper channel in the prescribed format to the Director, Serious Fraud Investigation Office, 2nd Floor, Pt. Deendayal Antyodya Bhawan, B-3 Wing, CGO Complex, Lodhi Road, New-Delhi-110003 within 60 days from the date of publication of this advertisement in the Employment News. Applications received after the due date or without ACRs/APARs, Vigilance Clearance or otherwise found incomplete will not be considered.

EN 50/78

Applicants who applied for the above posts in response to the earlier advertisement may, if otherwise eligible, apply afresh,
Test of General Awareness
(Useful for IBPS (Clerks & Officers)/SBI/SSC/UPP/Exams)

Q.1. Who can purchase "Electoral Bonds"?
(a) any Indian citizen or incorporated in India
(b) NRI
(c) PIOs
(d) None of these

Q.2. When Civil Services Day will be celebrated?
(a) 21st of April, every year
(b) 21st March
(c) 14th Jan
(d) 25th Jan

Q.3. "Niti Forum for North-East" will be co-chaired by:
(a) Union Minister
(b) The forum will be co-chaired by Vice-Chairman of NITI Aayog and Minister of State (IC), Ministry of Development of North Eastern Region (DoNER).
(c) Governor of Sikkim
(d) None of these

Q.4. Where construction of Bend-Barkot Tunnel with approaches on Dharasu-Bend- Barkot Directional Silkyara Line was held in India for the first time?
(a) 1956. The Tribunal shall
(b) The first goal is to ensure
(c) 2018-19 Union Budget
(d) None of these

Q.5. The long-pending dispute
(a) between States of Odisha and the National Mission on Bamboo Productivity & Value Addition with an aim to promote bamboo sector in a holistic manner
(b) between States of Odisha and the National Mission on Bamboo Productivity & Value Addition with an aim to promote bamboo sector in a holistic manner
(c) at Sydney, Australia
(d) None of these

Q.6. Which of the following is correct?
(a) Dec 15
(b) Jan 15
(c) 24th Jan
(d) None of these

Q.7. !!2018-19 Union Budget!!
(a) a Chairman and two other Members nominated by the Chief Justice of India from amongst the Judges of the Supreme Court or High Court.
(b) Further, services of two Assessors who are water resources experts having experience in handling sensitive water-related issues experts will be provided to advise the Tribunal in its proceedings
(c) The model seeks to introduce hot air balloon tourism for the first time
(d) None of these

Q.8. What is e-NAM?
(a) All the above
(b) Reiterated a shared vision
(c) An attempt to create direct employment of 1.2 million persons and indirect employment of 84,000 persons in which states?
(d) None of these

Q.9. Where "Global Digital Health Partnership Symposium" is conducted, recently?
(a) Australia
(b) Tokyo
(c) Paris
(d) None of these

Q.10. National Health Policy (2017) of India, clearly articulates the healthcare aspirations of people of India with three distinct goals. What are they?
(a) The first goal is to ensure district-level availability of essential database of information on health system components by 2020, which largely means availability of data from paper-based data collection and recording in public health system to use of sophisticated computerized tools for improving functioning of hospitals and health system.
(b) The second goal is to strengthen the health surveillance system and establish registries for diseases of public health importance by 2020, where it is aimed to create registries to support epidemiological profiling of diseases and to inform health providers for targeted health interventions.
(c) The third goal pushes us to work for establishment of federated national e-health architecture, setting-up of health information exchanges and national Health Information Network by 2025,
(d) All the above

Q.11. Nitha Jammu & Kashmir participated in "Wastako Jana". It is an initiative of which union ministry?
(a) Home Affairs
(b) Finance
(c) Development
(d) External Affairs

Q.12. What is the full name of "Bolivia" country?
(a) Purinatural State of Bolivia
(b) Confederation of Bolivia
(c) Central and Andia
(d) Union of Bolivia

Q.13. Who is Dar Shukoh?
(a) Prince Dar Shukoh, one of the sons of Emperor Shah Jahan grew up under the unmistakable influence of the teachings of the Sufi Saint, Shaik Muinuddin Chisti.
(b) "Maulawi-ul-Bahrain" or the "Mingling of the two Oceans" is book written by Jamia Millia Islamia Chair of Cross Cultural Dialogue.
(c) Both (a) & (b)
(d) None of these

Q.14. Which of the following is correct?
(a) Sufi saints & Places
(b) Khaja Mohiuddin Chisti’s Shrine: Ajmer, Rajasthan
(c) Hazrat Khazrati Moinuddin Aulia’s dargah : New Delhi
(d) Ameen Peer Dargah near Agra Pradesh

Q.15. National Urban Housing Fund (NUHF) for Rs. 3000 crores is created. Where will be this fund?
(a) This will be situated in Building Materials and Technology Promotion Council (BMTPC), an autonomous body registered under the Societies Registration Act, 1860 under the Ministry of Housing and Urban Affairs NABARD
(b) SDBI
(c) Rural Bank
(d) None of these

Q.16. The target is to cater to the demand of housing shortage of nearly 1.2 crore and make available 12.96 lakh houses every year to address the gap...,
(a) The aim is to accelerate milk production and productivity to also enhance the livelihoods of dairy farmers
(b) The purpose is to achieve our Nationally Determined Contribution (NDC) targets under the Paris Agreement 2021-2030
(c) The Ministry of Agriculture and Farmers’ Welfare with the Ministry of Environment Forest and Climate Change
(d) None of these

Q.17. The nationalDRAMs will be launched with an aim to promote Farmer Producer Organizations (FPOs), agri-logistics, processing facilities and professional management with an allocation of Rs. 50 crore.
(a) "Operation Flood"
(b) Green Revolution
(c) Blue Revolution
(d) None of these

Q.18. Jal Marg Vikas Project (JMV) for augmentation of navigable length on the Haldia-Varanasi stretch of National Waterway-1 (Ganga) is started. Give details.
(a) Development of a plan for multimodal logistics park near the multimodal terminals being built under Varnasi, Sahalgund and Hardoi
(b) The JMV Project is being implemented by the IWW along with technical assistance and investment support of the World Bank.
(c) The development of a plan for multimodal logistics park near the multimodal terminals being built under Varnasi, Sahalgund and Hardoi
(d) None of these

Q.19. When World Rain Day is celebrated?
(a) Feb 13
(b) Jan 15
(c) Dec 15
(d) None of these

Q.20. Milk production in India, which was around 17-22 million tonnes in the 2000s, has grown to 104 million tonnes in 2016-17.
(a) 165.4
(b) 165.3
(c) 148
(d) 100

Q.21. November 2016 National Mission on Bovine Productivity Scheme was started under Rashtriraj Gokul Mission with an allocation of Rs.825 crores. What is the aim?
(a) The aim is to accelerate milk production and productivity and to also enhance the livelihoods of dairy farmers
(b) The purpose is to achieve our Nationally Determined Contribution (NDC) targets under the Paris Agreement 2021-2030
(c) The Ministry of Agriculture and Farmers’ Welfare with the Ministry of Environment Forest and Climate Change
(d) None of these

Q.22. 21 Mandis on 14th April 2016 have reached 479 Mandis across 14 states and 1 Union Territory,
(a) a person, who is a citizen of India and incorporated in India
(b) the sons of Emperor Shah Jahan grew up under the unmistakable influence of the teachings of the Sufi Saint, Shaik Muinuddin Chisti.
(c) Both (a) & (b)
(d) None of these

Q.23. November 2016 National Mission on Bovine Productivity Scheme was started under Rashtriraj Gokul Mission with an allocation of Rs.825 crores. What is the aim?
(a) The aim is to accelerate milk production and productivity and to also enhance the livelihoods of dairy farmers
(b) The purpose is to achieve our Nationally Determined Contribution (NDC) targets under the Paris Agreement 2021-2030
(c) The Ministry of Agriculture and Farmers’ Welfare with the Ministry of Environment Forest and Climate Change
(d) None of these

Q.24. Where the 8th Global Symposium is to be launched with an aim to promote Farmer Producer Organizations (FPOs), agri-logistics, processing facilities and professional management?
(a) Sydney, Australia
(b) Tokyo
(c) Paris
(d) None of these

Q.25. The compilation of Q’s & A’s has been done by Mr Praturi Potayya Sarma. However, such a compilation is only indicative in nature and readers are advised to consult multiple sources/forums for building a sound knowledge of current affairs.

Answer Key shall be published in the Next Issue

Free weekly Mocks at Test.KnowledgePhilic.in
The ninth report of second knowledge society has become a major creative force. Knowledge and information. In the 21st century. Knowledge society refers to face the establishment of a sound knowledge resource for the holistic economic and social development. Every government is striving for the ability and omnipotent knowledge has been recognized as the foremost and omnipotent basic elements or resources of knowledge: e.g., technology, organization, knowledge, information, data and knowledge. Education and skills are sound in the present position. As per Carl Dahlman and Anuja Uztan. “India has been lacking ingredients for making this transition. It has a critical mass of skilled, English-speaking knowledge workers, especially in computing. This is a well-functioning democracy. Its domestic market is one of the world’s largest consumer markets, its impressive Diaspora, creating valuable knowledge linkages and networks. The list goes to on—knowledge workers, who depend on the government, private sector and civil society to work can create a common understanding of where the economy should be headed. Thus, India needs a knowledge-based economy, one that has a scientific temperament too”.

Knowledge Society

Knowledge society of the present millennium, has knowledge been recognized as the foremost and omnipotent resource for the holistic development and growth of mankind. Every government is striving for the establishment of a sound knowledge society face the ever increasing challenges of 21st century. Knowledge society refers to any society where knowledge is the main factor of production and capital and labour. Such type of society creates shares and uses knowledge for the prosperity and well-being of its citizens. Economic, social, political, administrative and all other human activities are highly dependent on a huge volume of knowledge and information. In other words, a knowledge society is a society in which the use of knowledge becomes a major creative force.

The ninth report of second administration reforms commission puts greater emphasis on the establishment of a knowledge society. The document identifies the need for integrating knowledge management. In this regard, it is contextual to analyse the basic socio-economic and educational data and scenario of the country. As per 2011 census, the literacy rate in India was 74.04 percent and still it is very less than the world’s average (86%). The goal of universal access to elementary education has yet not been achieved. There are also disparities in access to school education between states, rural and urban areas, gender as well as different economic classes.

The scenario of higher education is more chaotic in the country. There are only 864 universities and 4026 colleges and 11689 other institutions (2017) in the country where 38.2 million students are pursuing their higher education. Although, the enrollment of 38 million students and still it is very less than the world’s average, accounts, very small percentage in entire population. Similarly, the accessibility of higher education in India is less than half of developed countries (2016-17) in comparison to other countries e.g. USA (89 percent), Australia (81 percent), UK (74 percent) and France (55 percent). It is again a matter of sorrow that only 11 percent graduates go for postgraduate studies and 8 percent go for research (M. Phil and Ph. D. etc.). A total of 77,000 research scholars are registered every year in the country and out of these only 15900 research scholars are awarded by doctoral degree. Furthermore only 7 percent of science pass outs and engineers are employable. Our 65% of youth is in working age group but these jobless graduates have worthless degree.

India’s poor performance in research is also highlighted by reports to the government. In 2012, Finland had 77707, Singapore had 6088, Japan had 5573, USA had 4683 and even China had 1380 and both the million inhabitants, while India had only 137. India spends only 85% of the budget on education development and the private sector contributes 3.5% and South Korea spends 4.2 on R and D. India filed only 71865 patent applications in US Patent and Trademark Office till 2015, while Japan had 1068934, Germany 295716 and Norway 145366 applications. Publication of books and research paper along with the transfer of the knowledge and the registration is an essential requirement for knowledge society. In terms of capacity to produce scientific temperament too”.

Knowledge Management

Time has come to develop a strong, reliable, flexible and collaborative knowledge organization to document, display and protect the knowledge available in the organization processes or with the individuals. Since, the ‘administrative state’ has been a foremost agent for the development of the country and country, the institutional and innovation efforts and research activities, hence almost every administrative government has its own vast procedures, practices and knowledge stores need to be protected and preserved. Since, Knowledge Management (KM) has been established as a separate discipline in most developed countries. By nature, KM is multidisciplinary and related with information and media, computer science, social science and public policy. Public policy is a refined term and sphere for formulation, implementation, evaluation and feedback on governmental decisions. Knowledge management comprises a range of strategies and practices used in organizational strategy, identifying, create, represent, distribute and enable adoption of insights and experiences. Such insights and experiences are either embodied in individuals or embedded in organizational processes, or both. Private sector across the globe is much ahead so far as KM efforts are concerned. Most of the knowledge management professionals have the ‘business strategy’, ‘information technology’ or ‘human resources management’.

India is the biggest democratic nation in the world where economy, society, industry, polity and administration are passing through transition phase. The World Bank study document entitled “India and the Knowledge Economy: Leveraging Strengths and Opportunities” (2005) reveals that India has made tremendous strides in its economic and social development in the past two decades and is poised to make even faster growth in the years to come. The document identifies the following key issues needs to be selected as priorities:

1. Strengthening the Economic and Institutional Regime
2. Development of Educated and Skilled Workers
3. Creating an Efficient Innovation System
4. Building a Dynamic Information Infrastructure

India Vision-2020

India Vision-2020 report assumes that India would achieve quadrupling of per capita income by 2020 and would attain a level of development far higher than what is today in the past upper middle income (UMI) countries such as Argentina, Chile, Hungary, Malaysia, Mexico, Thailand and South Africa. The report says that India should Endeavour to acquire the underlying principles and theoretical knowledge so as to be able to be applied appropriately to our own specific case.
Huge Job and... Continued from page 2

post-harvest crop damage and declining availability of water as an agricultural input. Investment in agriculture and biotechnology has resulted in significantly enhanced R&D capability and institutional building over the years. However, progress has been rather slow in converting the research leads into usable products.

The spectrum of biotechnology application in agriculture is very wide and includes generation of improved crop varieties, processing, and post-harvest damage control; animal improvement; vaccine development; and environmental restoration and pollution control. Biotechnology has a critical role in health promotional strategies. A number of genomics and proteomics based technologies such as white biotechnology) uses industrial biotechnology (also referred to as secondary or industrial biotechnologies even where they have been somewhat uneven. Industrial biotechnology - is strongly developing. Industrial biotechnology (also referred to as white biotechnology) uses industrial systems for the production of useful chemical entities. This technology is mainly based on biocatalysis and fermentation technology in combination with recent breakthroughs in the forefront of molecular genetics and metabolic engineering. This new technology has developed into a main contributor to the growth of a number of sectors such as fine and bulk chemicals, solvents, bio-plastics, vitamins, food and feed biotechnology, pharmaceuticals, bio-industries, etc. Industry to establish a strong research base, facilitates exploration and exploitation of indigenous bio-resources and bio-technologies even where they have proven efficacy.

Mineral Exploration Corporation Limited (MECL) a profit making Public Sector Enterprise (A Miniratna Company) under the Ministry of Mines, Government of India invites Online applications from promising, energetic and young persons with brilliant academic background to join the Organization as Executive Trainee (Chemist).

RECRUITMENT THROUGH - "GATE-2017"

Mineral Exploration Corporation Limited (MECL) is a profit making Public Sector Enterprise (A Miniratna Company) under the Ministry of Mines, Government of India. It is an emerging sector - the market size is an emerging sector - the market size (each of size USD 20 million - USD 100 million). India has strengths in Chemistry and Computer Science, Software Engineering and Biolife Sciences. To conclude, Biotechnology can deliver the next wave of technological change that can be as radical and even more pervasive than that brought about by the use of computerization, intellectual wealth creation, expanding entrepreneurial opportunities, augmenting industrial growth are a few of the compelling factors that warrant a focussed approach for this sector.

Biotechnology as a subject has grown rapidly and as far as employment is concerned it has become one of the fast-growing sectors. Employment record shows that biotechnology has a great scope in future. Biotechnologists can find jobs in pharmaceutical companies, chemical, agro-chemical and allied companies. They can be employed in the areas of planning, production and management of bio-processing industries. There is a large scale requirement of research laboratories run by the government as well as the corporate sector.

Biotechnology students in India may find employment opportunities in many sectors such as universities, research institutes or at private centres as research scientists/ assistants. Alternatively they may find employment in biotechnology companies or biotech-related companies such as pharmaceutical firms, food companies, agro-chemicals and agricultural companies that are engaged in business related to life sciences ranging from equipment to chemicals to pharmaceuticals and diagnostics. The sector can range from research, sales, marketing, administration, quality control, breeding, technical support etc.

As a final point, Biotechnology backed by GATE-2017 has immense potential to develop such resources at affordable cost. As a result, India has a potential to create millions of jobs. The government is investing substantially for creating development and exploitation of biotechnology for developing countries. Biotechnology has immense potential to grow and provides plenty of opportunities to investors. The 'National IPR policy' announced by the Government of India in February 2005 has the potential to help promote innovation, R&D and entrepreneurship, also lays down processes to expedite IPR filings, which is critical for the success of this sector.

(Ankita Rani, Researcher in Biotechnology, and Ms. Ranjeet Mehta, Principal Director PhD Chamber of Commerce and Industry, email ranjeetmehta@gmail.com, and Ms. Ankita Rani, Researcher in Biotechnology)
DE-FACTO - CAVEATS TO PUBLISH IN JOURNAL

Madhvendra Shukla and Aakanksha Tyagi

"To write is human, to edit is divine." - Stephen King

The act of writing and getting published is a noble enterprise. Academic writing is an indicator of one's intellectual ability. An academic article, once published, is vital to gain academic proficiency. The reward of publishing outweighs the stress and exhaustion caused by Curriculum-Vitae and recognition but also unearths award and recognition.

Penning and publishing are two sides of the coin and the coin beggars 'academic' powers. In academia, CVs are the savior of academics, in which COVs prove persona's academic acumen - more the publications, better be thou professor.

The most authoritative and influential scheme of publishing in academia is via journals. Journals are refereed periodicals publishing academic research. These journals may comprise of original research articles and on occasion case studies and scientific commentary as well. A journal publication is differentiated from a magazine article, which is more of an expository, scientific validity and originality of content. All the journals are assigned a unique ISSN (International standardization of number) for ease of identification in a growing pool of literature.

Indian academia is rich with journals that are widely read and also several multidisciplinary journals. Our researchers across the country contribute thousands of articles yearly, in not only Indian but high impact international journals as well.

Get off the mark: a journal article published in a high standing journal is aspiration of every scientist. Journals are an indication of significant accomplishment for prestigious researchers in all fields of study. Research papers are an essential tool for growth in academia as they get published after a lot of deliberations of reaching to real-time data. Also, these papers go through rigorous peer review by the experts and are thoroughly scrutinized by the editorial editors before seeing the light of the day. Hence research journals are a source of the advancement of technological progress, bringing research backstage to the forefront.

Research manuscripts are published for several reasons such as -

- To share research findings with the national and international community
- To put the novel ideas out in open for debate, discussion and criticism
- To identify self or team as a scientist by participating in the scientific communication
- To earn a degree and higher grades
- To satiate the appetite for research and scientific writing
- To highlight and grab attention of academia towards pressing issues

Since journal articles have great impact in the scientific community and is important for career progression for especially young scholars, understanding and art of drafting and getting articles published is an essential skill.

Where to begin and what journals should you want to go to? The process of developing a research paper begins with selecting an appropriate theme. Most of the active researchers choose to publish their own primary data, while some have preference for a review article. Young researchers when beginning to peer review articles pay attention that their article -

- addresses an unexplained finding in their field
- resolves controversies or throws light on debatable issues
- highlights a new discovery/ invention
- One should thoroughly read the existing literature and attend relevant conferences to network with right people. These efforts ensure that you will find the hot topic which the journals and publishers are highly interested in.

Publishers and journal editors are actively on a lookout for quality articles. They want papers which -

- Cover hot topics in the subject
- Elaborate on an active research area
- Presents work that advances the field in some way
- Promises high downloads and citations
- Contain good sciences, have concise and clear presentation

Therefore choosing a publish-worthy theme sets the article on right path and increases the probability of acceptance.

Journal Selection

Selecting a suitable journal for your work is the most crucial step of getting published. It is important to note that 20% of the manuscripts are rejected due to poor journal selection.

While choosing a journal for your article, do not simply choose a journal at random. Instead ask yourself -

- What is the major focus of your work and who will be interested in reading it?
- Is it suitable for a journal that targets a particular audience?
- Does the journal mention a particular field of research?
- Are the articles published in a high standing journal?
- Does it publish research of the quality you want to achieve?

In case you are not confident of your choice of journal, you may seek help from the publisher to shortlist the right journal for you. Additionally there are provisions of transferring the screened out of one journal to another related journal. Therefore do not get disheartened, rather check for a possibility of submission to an alternate journal.

Manuscript Preparation

There is no acceptance of a paper than a only a proper theme and suitable journal. A manuscript should be written in an easy-to-read and concise and complete manuscript increases your chances of acceptance manifold.

The golden rule to develop an efficient manuscript is to meticulously read and follow manuscript submission guidelines of the journal.

Since not only peer reviewers but also readers wish to quickly get the maximum information - always make sure the structure is content into subheadings. Largely, we have introduced methodology, results and discussion. Most of the journals and proceedings (abbreviated as IMRD) sections which forms the backbone of the paper, however components such as title, abstract and references are equally crucial. These components should be written in the following order for maximum on content of the manuscript.

1. Methods: write in one single paragraph to explain the details of the experiment. Please state the significance of your findings. Methods section should be referenced by the results section. Present your method in an objective way, removing any bias or opinions. Include details of the sample preparation, any reagents or standard solutions used. Formulate it as a series of steps. Use past tense and break down your methodology. It is advisable to use past tense and break down your methodology in separate sections. It is advisable to use past tense and break down your methodology.

2. Results: is the main theme of the article. Keep it brief and convey the main finding of your research. Title should be specific and not a long list of jargons and abbreviations in the title. Keep it brief and convey the main finding of your research.

3. Discussion: use subsections in write in past tense when referring to the results and in present tense in the discussion. Explain the implications. Briefly summarise your results. Explain the significance of your findings. Elaborate a bit on limitations of your study. Explain possible reasons of unexpected findings.

4. Conclusion: restate the key findings of your research. Discuss future scope of the study. Give a take-home message.

References: references are your tools to navigate to past and future research. References give context to your research. Most importantly they help others find your work and also crucial for the future research. It is also advisable to follow the style guide of your target journal. Always give complete details in references. Maintain consistency with in-text citations of references.

10. Display items: figures, tables and images are called display items. They are very effective tool for exhibiting complex data. Make sure the published figures and tables are not duplicated in the text. Keep them neat and well labelled.

In conclusion, writing and getting them published requires clarity, conciseness and carefulness. Below are the factors in your manuscript that the probability of getting published increases.

1. Title: is your first hello to the readers. It grasps the most attention. Title should be specific and not a long list of jargons and abbreviations in the title. Keep it brief and convey the main finding of your research.

2. Abstract: most of the people will only read abstract. It should be brief. Avoid references in this section. Abstract is to provide a concise and accurate summary of your research objective, methods and findings. It should give an explain the relevance of your findings.

3. Keywords: keywords are crucial for classifying your manuscript. Choose well-written and specific technical terms as keywords. Avoid generic terms.

4. Introduction: give ample background information to help your work into context. Present the research question and your approach towards it. Always cite references that makes readers can refer to. Do not write longish literature review.

6. Results: arrange your findings in a string of facts like a story. Use past tense and break the information into separate sections. Figures and tables in results section should be referred to in present tense. Explanations should be written in past tense. You do not just state the results. Do not duplicate or repeat the information from text to tables/figures. Include the results of statistical analysis. Refer to the figures and tables in the text where appropriate.

7. Discussion: use subsections in write in past tense when referring to the results and in present tense in the discussion. Elaborate a bit on limitations of your study. Explain possible reasons of unexpected findings.

8. Conclusion: restate the key findings of your research. Discuss future scope of the study. Give a take-home message.

9. References: references are your tools to navigate to past and future research. References give context to your research. Most importantly they help others find your work and also crucial for the future research. It is also advisable to follow the style guide of your target journal. Always give complete details in references. Maintain consistency with in-text citations of references.

10. Display items: figures, tables and images are called display items. They are very effective tool for exhibiting complex data. Make sure the published figures and tables are not duplicated in the text. Keep them neat and well labelled.

In conclusion, writing and getting them published requires clarity, conciseness and carefulness. Below are the factors in your manuscript that the probability of getting published increases.

1. Title: is your first hello to the readers. It grasps the most attention. Title should be specific and not a long list of jargons and abbreviations in the title. Keep it brief and convey the main finding of your research.

2. Abstract: most of the people will only read abstract. It should be brief. Avoid references in this section. Abstract is to provide a concise and accurate summary of your research objective, methods and findings. It should give an explain the relevance of your findings.

3. Keywords: keywords are crucial for classifying your manuscript. Choose well-written and specific technical terms as keywords. Avoid generic terms.

4. Introduction: give ample background information to help your work into context. Present the research question and your approach towards it. Always cite references that makes readers can refer to. Do not write longish literature review.

6. Results: arrange your findings in a string of facts like a story. Use past tense and break the information into separate sections. Figures and tables in results section should be referred to in present tense. Explanations should be written in past tense. You do not just state the results. Do not duplicate or repeat the information from text to tables/figures. Include the results of statistical analysis. Refer to the figures and tables in the text where appropriate.

7. Discussion: use subsections in write in past tense when referring to the results and in present tense in the discussion. Elaborate a bit on limitations of your study. Explain possible reasons of unexpected findings.

8. Conclusion: restate the key findings of your research. Discuss future scope of the study. Give a take-home message.

9. References: references are your tools to navigate to past and future research. References give context to your research. Most importantly they help others find your work and also crucial for the future research. It is also advisable to follow the style guide of your target journal. Always give complete details in references. Maintain consistency with in-text citations of references.

10. Display items: figures, tables and images are called display items. They are very effective tool for exhibiting complex data. Make sure the published figures and tables are not duplicated in the text. Keep them neat and well labelled. Preferably have high quality and resolution. Add captions and cite display items in the text where ever required.

Medium and high impact journal requires thoughtful and redundant information. Avoid long sentences. Keep facts in simple and direct language.

Since journal articles have great impact in the scientific community, getting them published requires clarity, conciseness and carefulness.

Penning and publishing are two sides of the coin and the coin beggars 'academic' powers. In academia, CVs are the savior of academics, in which COVs prove persona's academic acumen - more the publications, better be thou professor.

The most authoritative and influential scheme of publishing in academia is via journals. Journals are refereed periodicals publishing academic research. These journals may comprise of original research articles and on occasion case studies and scientific commentary as well. A journal publication is differentiated from a magazine article, which is more of an expository.
**NATIONAL**

- The Cabinet Committee on Economic Affairs, CCEA, approved continuation of Prime Minister Employment Generation Programme for three more years till 2020. It will have a total outlay of Rs. Five Thousand and Five Hundred crores. The Scheme will create sustainable estimat-ed employment opportunities for 15 lakh persons in three financial years.

**INTERNATIONAL**

- India and Jordan have inked 12 agreements in areas including Defence, Health and Cultural Exchange Programme. The other MoUs include cooperation between Prasar Bharati and Jordan TV Cooperation and Indian Institute of Mass Communication and Jordan Media Institute (JMI). The MoU between Prasar Bharati and Jordan TV provides for cooperation in the fields of exchange and co-production of programs, training of personnel and further coor-dination. The pacts were inked after delegation-level talks between Prime Minis-ter Narendra Modi and King of Jordan Abdullah II bin Al Hussein in New Delhi. The two leaders discussed the entire gamut of bilateral relations.

- India will continue its commitment to enhanced economic and development part-nership with Afghanistan. The External Affairs Ministry said that Foreign Secre-tary Vijay Gokhale held his meetings with the Afghan leadership and Statement at the Kabul Process, conveyed Indian support for the efforts of the people and Afghanistan government to build a peaceful, stable, secure and prosperous nation free from the shadow of terrorism.

- Afghan President Ashraf Ghani has offered peace talks without preconditions to the Taliban after 16 years of war. Speaking at a peace conference in Kabul, he proposed measures including a cease-fire and prisoner swaps. Previous peace talks offers have not stopped attacks by the Taliban, who have yet to respond to the offer. Mr Ghani offered to recognise the Taliban as a legitimate political group and held out the possibility that the Taliban could be removed from the interna-tional blacklists.

- In Mali, four UN peacekeepers have been killed and four more were injured after their vehicle hit an explosive device in the country’s central Mopti region. The UN mission in Mali said the vehicle transporting the UN peacekeepers was hit by the improvised explosive device. The incident happened a day after six Malian sol-diers were killed in another blast.

**BUSINESS & ECONOMY**

- The Indian economy grew at five-quarter high of 7.2 per cent in the October-December period. This reflects overall recovery due to good show by agriculture, manufacture, mining, construc-tion and certain services. As per the second advanced estimates of the Central Statistics Office (CSO), the economy is expected to grow at 6.6 per cent in the current fiscal ending March 31, compared to 7.1 per cent in 2016-17. The earlier estimate was 6.5 per cent.

- Eight infrastructure sectors grew at a faster pace of 6.7 per cent in January against 3.4 per cent in the year-ago month as petroleum refinery and cement output zoomed while steel power and coal production improved. I&B Minister Smriti Irani releases India 2018 and Bharat 2018

The Union Minister for Information and Broadcasting, and Textiles, Smt Smriti Zubin Irani has said that India / Bharat 2018 is a comprehensive manual of all landmark government schemes. The Minister stated this at the release of Annual Reference India / Bharat 2018 on February 27, 2018. Speaking on the occasion, Smt Smriti Zubin Irani said that the online version of India / Bharat 2018 will help researchers and students who often look for information on internet. It will be a referral book not only for those who study administration but also for researchers and student community, she added. She also hoped that the book will be brought out in all Indian languages from the next year to benefit the public at large.

India 2018 and Bharat 2018, the reference annuals are the flagship publications brought out by Publications Division. Over the years they have been hailed as the authentic and comprehensive source of information on policies/programmes and activities of the Ministries and Departments of the Government of India. A prestigious volume brought out by the Publications Division based on the material compiled by the New Media Wing, India 2018 has entered its 62nd year of publication.

India 2018, the Reference Annual, an exhaustive publication, deals with all aspects of country's development from rural to urban, industry to infrastructure, science and technology to human resource development, art and culture, policy, economy, health, defence, education and mass communication. The Annual also gives a glimpse of flagship programmes of the Government, important events of the year and the story of Indian States & Union territories with their vital statistics.

The two Reference Annuals are also available as e-book in the most commonly used e-PUB format and can be accessed on a variety of devices such as tablets, computers, e-readers and smart phones. The e-book conforms to the best international standards technically and is a faithful replication of the print version. The e-INDIA has a variety of reader friendly features for better communication like hyperlinks, highlighting, book marking and interactivity.

Both India/Bharat 2018 are available for sale both through physical and online medium in following ways:

p-Book:
1) The p-Book priced at Rs. 350, can be purchased from 8 sales emporia and 3 Yojana Sales Units of DPD and its authorized agents across the country.
2) The p-book is also available for online sale through BharatKosh portal which can be accessed directly as well as through Publications Division's website, www.publicationsdivision.nic.in

e-Book:
Priced at Rs. 263, the e- books are available on leading e-Commerce platforms: Amazon.in, Flipkart and Google Play Books.
