On February 1, 2018, the Finance Minister, Sh. Arun Jaitley presented the Union Budget for the financial year 2018-19. The union budget, also known as the annual financial statement, is a statement of estimated receipts and expenditures of the government during a particular year (in this case April 1, 2018 - March 31, 2019). While outlining the estimated receipts and expenditure, the union budget also illustrates the allocation of expenditure/resources among different programmes (old and new) for the coming financial year.

The growth and development trajectory that will be followed by the Indian economy is outlined in detail in the union budget. The union budget touches on several socio-economic aspects of the Indian economy. This analysis focuses on two key but interlinked issues of rural development and skill development for Youth. Almost one million people are added to country's workforce every year. As a result, the unemployment rate in India is around 3.5 per cent, the worrying factor is the fact that unemployment rate among the age group of 15-24 years - who are supposed to be the first time workers - was found to be around 10 per cent in 2014 to 10.5 per cent in 2017 as per a recent National Labour Organization Report. Thus, providing gainful employment opportunities to the first time workers is an emerging challenge for the government concerned which has also been reflected in the Economic Survey 2017-18. With lack of timely data, the unemployment rate may not be assessed unhampered. In this regard, the Economic Survey 2017-18 has come out with a new way to estimate formal-sector non-farm payroll with the help of increased digitization and using the data provided by GSTN. Let us now turn our attention to the specifics that are included in this year's union budget. The budget exhorts the youth of our nation to lead a life free of corruption, a problem that has plagued our economy for a long period of time. Longing for certificate attestation and interview requirements for appointments in Group C and Group D posts is claimed to have saved a lot of time and money for lakhs of candidates. The budget outlines a number of steps which will have a positive impact on generating gainful and productive non-farm employment for the small and marginal farmers. Initiatives like Minimum Support Price (MSP) to 1.5 times the cost of production of kharif and rabi crops, upgrading the existing 22000 rural haats into Gramin Agricultural Markets (GrAMs) in line with e-NAMs and APMCs, improvements in marketing and habitation to GrAMs, cluster cultivation of horticulture crops in a scientific manner, etc., will have a positive impact on employment generation in rural areas. In these GrAMs, physical infrastructure will be strengthened using Defence and Telecommunication and Technology to launch a Mission on Cyber Physical Systems to support establishment of centres of excellence. The allocation of Digital India programme has been doubled to Rs. 3073 crore in the union budget.

The budget recognizes the role of Micro, Small and Medium Enterprises (MSMEs) as a major engine for growth and employment in our economy. In this regards the budget outlines measures to reduce the tax burden on MSMEs so as to create larger number of jobs. The budget recognizes the role of MSMEs, which accounts for almost 99% of the companies filing their tax returns. The lower corporate income tax rate for 99% of the companies is expected to leave them with huge investment surplus which in turn will create more jobs. Lending targets under MUDRA Yojana has been set at Rs. 3 lakh crore for the year 2018-19, which will largely be distributed through Non-Banking Financial Companies (NBFCs). A large number of steps were taken during the last 3 years to boost employment generation. As per the budget document and an independent study, these steps have helped in creating about 70 lakh jobs in 2017-18. In order to keep this momentum, the budget has announced that the minimum period in subsequent years will contribute 12% of the wages of the new employees in the Employee Provident Fund for all the sectors for three years at Rs. 55000 crore.

The budget has also made an attempt to increase employment of women in formal sector and endeavors to reduce their take-home wages. For this the budget has proposed to make amendments in the Employees Provident Fund Act, 1952 and Miscellaneous Provisions Act, 1952 to reduce women employees' contribution by 8% for first three years, and 6% for the subsequent years against existing rate of 12% or 10% with no change in employee who is employed for less than the minimum period of employment. The Government is going to set up a mission centre of skill in every district of the country under Pradhan Mantri Kaushal Kendra Programme. To boost the apparel and made-up goods sector the government has proposed to increase the outlay for the textile sector from Rs. 6000 crore in 2016 to Rs.7148 crore in 2018-19. To increase employment and aid growth, Government's estimated expenditure for extra budgetary support on infrastructure for 2018-19 is being increased to Rs. 5.97 lakh crore against estimated expenditure of Rs. 4.94 lakh crore in 2017-18.

Certain tax incentives have also been announced in the current budget in areas of new employment growth in certain sectors. At present, "a deduction of 30% is allowed in addition to normal deduction of 80% in respect of emoluments paid to eligible new employees who have been employed for a minimum period of 240 days during the year under section 80-JJAA of the Income-tax Act. However, the minimum period of employment is relaxed to 150 days in the case of apparel industry" (Page 26 Part148 Union Budget 2018-19). In order to encourage creation of new employment, the budget proposes to extend this relaxation to garments, clothing and textiles sector also.

Further, it has been proposed to rationalise this deduction of 30% by allowing the benefit for a new employee who is employed for less than the minimum period during the first year but continues his employment for the minimum period in subsequent year.

The details mentioned above are expected to create a positive environment for skill development among youth as well as employment generation. As per the budget document and an independent study, these steps have helped in creating about 70 lakh jobs in 2017-18. In order to keep this momentum, the budget has announced that the minimum period in subsequent years will contribute 12% of the wages of the new employees in the Employee Provident Fund for all the sectors for three years at Rs. 55000 crore.
