Prof. Pushpesh Pant

India in seven decades since Independence has often journeyed along a turbulent path. It has faced famines, fought wars and coped with devastating natural calamities. What is amazing is that despite daunting adversities it has not faltered for a moment from the resolve to build an inclusive, egalitarian society where everyone can live with 'head held high and mind without fear'.

There have been agonising interludes but these have been more than compensated by long spells of shared ecstasy. Accomplishments are many. Life expectancy at birth has soared, mortality rates have fallen, life expectancy at birth has soared, mortality rates have fallen. Education and health have reached the masses, and the number of literates has grown. The number of literates has grown. Fellers of obsolescence and superstition can only retard our economic development. Our gaze must remain fixed on the horizon of future.

Matters of Serious Concern: This should not be misconstrued to conclude that there are no areas of serious immediate concern. Caste continues to cast a dark disturbing shadow over electoral politics. Those who were identified as 'low born' and considered 'untouchables' continue to suffer from stigma and oppressive social discrimination. At times simmering conflicts fuelled by age old prejudice explodes violently. Such incidents scratch away the scar tissue from old wounds—almost healed—threatening to transform these into festering sores.

Similarly, the largest democracy in the world hasn’t been able so far to instil the sense of security in some sections of society. This too, alas, has been aggravated due to what is euphemistically called ‘identity politics’. What we all need to understand well is that the only political identity that is compatible with the idea of India is ‘Indian’. India is a land of great diversity—geographical, religious and linguistic—this resplendent pluralism is our unique heritage that has enriched our culture through the ages. People of different faiths and with very different life styles have lived harmoniously. It’s only during the period of colonial rule that the policy of ‘divide and rule’ followed by imperialists created fissures and sense of grievances among Indians.

Those who framed our constitution were wise people, but acule awareness that new challenges have emerged. Not only does India continue to live in an exceptionally hostile neighbourhood its social fabric is under unprecedented stress due to the processes let lose by globalisation.

Repeatedly the Prime Minister has reiterated that the only book he considers sacred is the Constitution of India. The Constitution clearly defines the Fundamental Rights of the People of India—its citizen. However, most of the time most of us tend to forget that no right can be absolute and unrestricted without corresponding duties. The same constitution also provides details about ‘reasonable restrictions’ that can limit Fundamental Rights for public good.

Another cause for concern is the conflict of competing jurisdictions between different constitutional authorities and institutions. The relationship between the Judiciary and Legislature is seldom cosy and comfortable in a vibrant democracy but the tug of war cannot rage perpetually and in public view. Nor can be these two pillars of democracy be perceived arrayed on the battlefield as perpetual adversaries. While it has become a cliché to describe any difference of opinion, disagreement or dissent as a ‘Constitutional Crisis’ it cannot be denied that there is an urgent need to review and clarify some grey areas in light of experience since 1950.

Similarly those who govern the states need to understand well that our federal system is biased towards the centre. No state can however large or
My dear countrymen, the month of August is the month of Revolution. We have been hearing this as a natural fact right from our childhood and the reason is, the Non-Cooperation Movement was launched on the 1st of August 1920; the Quit India Movement, which is also known as 'Agasti Kranti' began on the 9th of August 1942; and on 15th August 1947 India became independent. In a way, there are many events in the month of August that are closely associated with the history of our freedom movement. This year, we are going to observe the 75th Anniversary of the Quit India Movement. But very few people know the fact that the slogan, 'Quit India' was coined by Dr. Yusuf Meher Ali. Our young generation must know what had happened on the 9th of August 1942. From 1857 to 1942, the people of India, with their ardent desire for freedom, came together, fought together, and suffered hardships. These pages of history are an inspiration to us for building a glorious India. The heroes of our freedom struggle with their single-minded devotion did a 'Tapasya', endured hardships, made great sacrifices and even laid down their lives; what greater inspiration could there be!

The ‘Quit India Movement’ was an important milestone in the Indian Freedom Movement. It was this movement that had made the entire nation determined to attain freedom from the British Rule. This was the time when the people of India, in every part of the country - be it a village or city, the educated or illiterate, the rich or poor, everyone came together shoulder to shoulder and became a part of the ‘Quit India Movement’. People’s anger was at its peak. Millions of Indians responded to Mahatma Gandhi’s clarion call and the mantra of ‘Do or Die’; they flung themselves into the struggle. Millions of the youth of the country renounced their studies, gave up their books. They set out on the march to the sound of the bugle for freedom. Mahatma Gandhi gave a call for the ‘Quit India Movement’ on 9th August, but each and every prominent leader had been imprisoned by the British Government, and it was during this time that the second generation of leadership comprising great men like Dr. Lohia, Jai Prakash Narayan played a leading and pivotal role.

In the ‘Non-Cooperation Movement’ of 1920, 24 members of the ‘Quit India Movement’ of 1942, two different persons of Mahatma Gandhi became a part. The whole struggle of the ‘Quit India Movement’ was different and a 1942 things rose to such a point, there was such a heightened sense of intensity, that a Mahatma Gandhi gave the mantra of ‘Do or Die’. The reason for this entire success was the people’s support, people’s resolve, and people’s struggle. The entire country had come together as one to fight for the cause. And I sometimes think that if we link the pages of history, it is seen that the First War of Independence took place in 1857. The freedom struggle which began in 1857, continued to be manifested in one or the other corner of the country till 1942. This long time period ignited the intense longing for freedom in the hearts of the people. Each one became committed to do something. The determination and resolve, with each passing generation. New people kept coming forward each time in place of those who departed and the country kept on moving. The country’s enthusiasm, tireless efforts, to uproot the British Rule. This perseverance, this struggle from 1857 to 1947, was the ‘Quit India Movement’ which reached its climax in 1942; the clarion call of ‘Quit India’ was such that within five years the British were compelled to leave India. 1857 to 1942 - the yearning for freedom had reached the grassroots, had reached everybody. And 1942 to 1947 - these decisive five years became integral for the masses to successfully attain resolution, freedom for the country. These five years were indeed decisive.

I would now like to connect you, with its mathematical manifestation. We became free in 1947. This is 2017. It has been almost 70 years. Governments have come and gone. Systems have been made, changed, nurtured, and expanded. Everyone has tried to rid the country of its problems in one’s own way. There have been efforts towards increasing employment, poverty alleviation, and development. These efforts were also driven by hard work and perseverance, in different ways. There have been successes. Expectations have also risen. The way, the years from 1942 to 1947 were the decisive years for attainment through resolve. To see that 2017 to 2022 presents itself as a new segment of five years for attainment through resolve. We should celebrate 15th August 2017 as the Sankat Pana or the Day of Resolve, and in 2022 marking 75 years of Freedom, we will certainly transform that resolve into ‘Siddhi’ or attainment.

If 1.25 billion Indians, commemorate Agast Kranti Day of 9th August, and each person resolves on 15th August, that he or she will do for the country, this much as an individual, as a citizen, this much as a family, this much as a society, this much as a village, this much as a town, this much as a city, this much as a government department, and this much as the government; let there be millions and millions of resolutions; let there be stirrings for the realisation of these millions and millions of resolutions. Just as the five years from 1942 to 1947 were decisive for the country’s independence, these five years from 2017 to 2022 can and must play a decisive role for the future of India. Five years from now, we will celebrate 75 years of India’s Independence. Therefore, we must take a firm resolve today. We must make 2017 our Year of Resolve. In this month of August, we have to come together and resolve: Fifth - Quit Corruption; Fourth - Quit India; Third - Quit India; Second - Quit India; First - Quit India! The need for today is not ‘Do or Die’, instead it is to come together, persevere, and work relentlessly with our utmost strength and determination for the New India. Let us live by and strive for this resolve. Come let’s launch a mega campaign Fifth - Quit Corruption; Fourth - Quit India; Third - Quit India; Second - Quit India; First - Quit India! Q 2. What are the requirements or clearance for formulations distributed free of cost?  
Ans: In case of clearance of physician samples distributed free of cost, the ITC availed on the said samples has to be reversed in view of the provisions under Section 17(5)(h) of the CGST Act, 2017. Q 16. Whether discounts can be claimed as an abatement from the price for assessing GST?  
Ans: No, since the goods are identified as exempt supplies under Section 1(4)(a) of the CGST Act, 2017, the value of supply for charging GST shall not include any discount which is given before or at the time of supply if such discount has been duly recorded in the invoice issued in respect of such supply. The value of supply shall also not include any discount which is given after the supply has been effected, if such discount is established in terms of an agreement entered into or before the time of supply and specifically linked to relevant invoices and ITC attributable to such discount has been reversed by the recipient of the supply.

Q 17. What are the relevant provisions for movement of transitional goods lying at the premises of contract manufacturer on or after appointed day?

Banking in India has an interesting bank history. It is a story rich talks about banks and is in a position to avail services of these banks. This was not the situation in early years of independence. The first bank in India opened on 15th August 1947 and became a republic on 26th January 1950. Our great leaders of those days wanted India to be a model country for the rural banking establishment, social justice and development. Banks are expected to bank signifying a significant role in a nation’s social and economic development. However at the time of our country’s independence, our banking system was not ready for this. There were very few bank branches in the country situated mostly at urban centres. These branches catered to upper sections of society consisting of big businessmen, industrialists and other persons of high net worth. Banking services were out of reach for labourers, small farmers and persons from lower income groups. This situation continued for about two decades till nationalization of banks happened. In a bold step government nationalized 14 big private banks in 1969. Government wanted these banks to play a major role in socio-economic development of the country. For this large number of bank branches were opened in the country, mostly in villages and small towns. Many government sponsored schemes were implemented through these banks. These schemes focused on providing income generating opportunities for poor people by engaging in productive activities, helping farmers in increasing the crop yield by using bank’s financial assistance for purchase of fertilizers, pesticides and farm equipments etc. The role of Co-operative banks was to provide loans to farmers and persons from lower strata of society.

Nationalized banks were playing their role and were excelling. But the set up of banks can’t fully meet the requirement of our village population. Nearly two third of India’s population lives in rural areas and many of them are not included in all development plans. To meet the banking requirements of this segment, it was decided to establish Regional Rural Banks in the country. For this an ordinance was introduced on 26th September 1975 which later got replaced by Regional Rural Banks Act of 1979. Under this Act Regional Rural Banks are being established for developing rural economy by providing for development of agriculture, rural industries and other production activities in rural area, credit and other facilities, in particular to small and marginal farmers, agro based entrepreneurs etc. These banks were to be established by different public sector banks as sponsor banks. The Reserve Bank of India (RBI) and government were to have a share of 50% and remaining 50% were to state governments. State government of Prathama Bank, sponsored by Syndicate Bank, was established at Moradabad on 2nd October 1975 followed by other state governmetns. The headquarters of Prathama Bank were at Gorakhpur (Uttar Pradesh), Malda (West Bengal), Bhawanipur (Haryana) and Jaipur (Rajasthan).

By 2017 the number of RRBS had increased to 196. RRBS were established as low cost institution. In the early years of their operation most of these incurred losses. To bring efficiency in their working and cut the losses incurred by them, reorganization was considered necessary. As a result of this today there are 56 RRBS in the country. Government has also identified 20 districts and having 87,000 employees. Their pay structure is similar to those of nationalized banks. As per data available 58 branches of RRBS can be found on Reserve Bank of India (RBI) website. Country’s biggest bank, State Bank of India has 14 RRBS with 3764 branches. Government nationalized 6 more banks in 1980. Some of the RRBS are promoted by this set of banks also.

Financial inclusion is a major agenda before our government. Considering the role of RRBS in making financial inclusion a reality, rural development and broad development of nation’s economy; sponsor banks and government are making every effort to strengthen and empower the RRBS. RRBS amendment bill, 2015 has been passed and notified in Gazette of India on 12.05.2015. With this amendment RRBS have more freedom in operating of their branches and also in the matters of raising capital and making investments.

Since their inception, RRBS have now cornered a share like other big banks. They are also making extensive use of technology and are offering innovative banking products and services. With branches of RRBS Indian Banking System has reached to remote places in the country. Working conditions in RRBS are more or less similar to those of Public Sector Banks. However employee mobility is restricted as branches of a particular RRBS are situated in a few adjacent districts within a state or union territory. Job in RRBS
